Dear Parents and Carers,

To assist the school in providing quality educational experiences for our students a voluntary school contribution of **$46.00 for one student (or $80.00 per family)** has been set. This money ensures extracurricular resources are provided for the students. Payment would be appreciated at the beginning of the school year to enable planned programs to proceed as soon as possible.

**The additional sum of $70.00 per student** will contribute towards requirements which, depending on grade, may include; diary, text books, exercise books, scrapbooks, visual arts diary and photocopying. These are available through the school, significantly subsidised and at bulk buy savings. The contribution towards technology subscriptions also allows children to access programs like *Mathletics* and *Reading Eggs* both at school and during their hours away from school.

You have already received a list of requirements that you must provide for your child. If you have any questions about those necessities, please speak to your child’s class teacher.

Felicity Bonello  
Principal

Please return this slip, with payment inside envelope, to the front office.

2016 Contributions
